

National Entrepreneurship Challenge (NEC)

E-Cell, IIT Bombay

Name: Sanjay Kumar Pedini

Team Role: Coordinator & Communication Lead (Student Outreach)

My Motivation

As our team's coordinator and communication lead, my motivation is to connect our technical work with the outside world. I realized early on that even if our team builds a great prototype in the lab, it won't make an impact unless we can explain our idea clearly to others.

I handle outreach, coordinate with mentors, organize our team presentation slides, and keep everyone updated. For me, entrepreneurship is about teamwork, clear communication, and sharing our vision with enthusiasm.

My Expectations from E-Cell

I expect E-Cell to help me improve my presentation and storytelling skills. I want to learn how to build a clean, effective student pitch deck and explain our project clearly to judges and mentors.

Through NEC, I aim to connect our student team with incubators, learn from experienced speakers, and gain confidence in representing our project at national student competitions.
